

# 2025 COMMUNITY CONVERSATION SERIES

## Caregiving: The Heart of America's Hidden Workforce

From Executive Producer Bradley Cooper and narrated by Uzo Aduba, *Caregiving* is a deeply moving documentary that shines a light on the lives of paid and unpaid caregivers across the country. Through intimate personal stories and untold history, the film explores the emotional labor, societal gaps and quiet heroism of those who care for others, often with little support.

Join us for two powerful evenings of film and facilitated dialogue. *Caregiving* will be screened in halves over the two nights. Following the screening, attendees will hear from a panel of speakers.
